

2020 COLLECTION

LUXURY PONTOONS

YOU FEEL IT DEEP WITHIN YOUR SOUL.

It's the water calling out to you, beckoning you home. Whether it's the smallest lake or the largest ocean, water is what defines us, sustains us, makes us who we are. Crest Marine has answered that call since 1957. We grew up on the waterways of Michigan — building, innovating and perfecting our designs to bring you unmatched style, comfort and luxury, and the fastest pontoons on the water. We answer the call by designing, engineering and building from scratch virtually every component that goes into our boats — from precision machining to welding, to the handstitched upholstery and our fiberglass helm stands we craft one at a time. Whether it's the stillness of a quiet lake or the possibilities of a giant ocean, the water is calling. So, let's get out there and answer the call together.

THE CREST 2020 COLLECTION

DESIGNED FOR LUXURY, COMFORT AND YOUR LIFESTYLE

It's clear that no other pontoon boat company can compare with Crest. We believe there are more than a few reasons for that, specifically the six pillars that drive our entire organization: structural superiority, innovation, style, comfort, precision and performance. Our commitment to these pillars ensures that, as a Crest pontoon owner, you'll experience a great sense of pride and boating enjoyment for years to come.

The Ultimate in Luxury and Performance

The Savannah is the embodiment of a truly premium watercraft — down to the very last detail. Designed to offer the best in performance, style, comfort and precision, the Savannah redefines what a luxury pontoon can be.

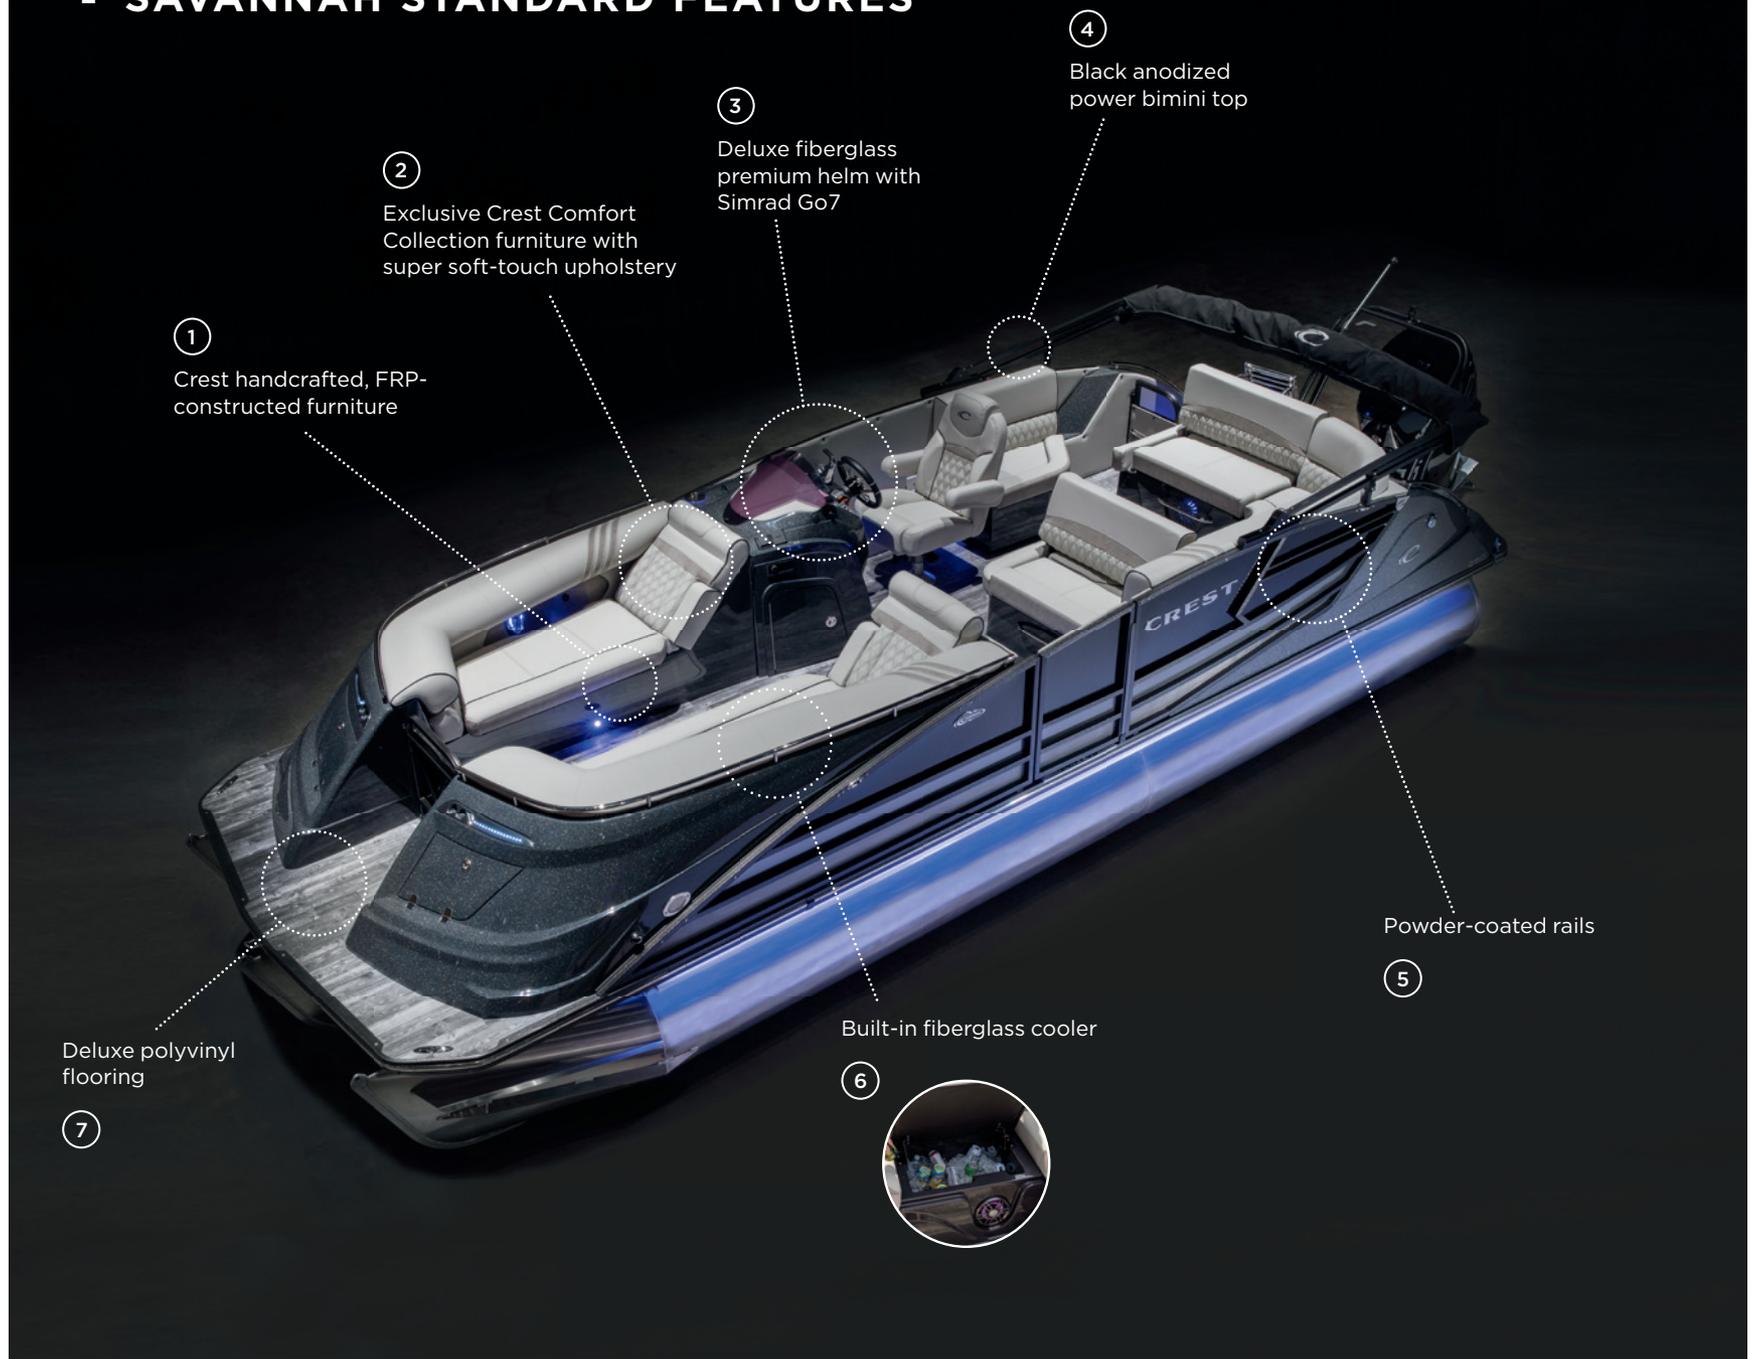

With the Savannah's modern design, the closer you look, the more impressed you'll be. From careful, precise stitching to elegant instrumentation, no detail has been overlooked. Because that's what it takes to ensure that all your expectations are exceeded.

Luxury, Power and Performance

In the spirit of innovation, our engineers integrated a full walk-through windshield, blurring the line between sport boat and pontoon. As a result, you get the ride of a luxury sport cruiser, the space of a pontoon and the confidence that comes with owning a Crest.

The Continental NX is a pontoon, but it feels like so much more. By combining the innovation of a full walk-through windshield with an optional twin-engine power plant that hits speeds of more than 60 mph, we've taken the pontoon to a whole new level.

Quality Craftsmanship and High Performance

The high level of quality and craftsmanship you expect from Crest is exhibited throughout the Continental, providing you with a superior experience every time you ride.

The first pontoon to have an integrated windshield, we designed the Continental with a walk-through feature to allow easy access to the entire platform. It's why the Continental feels more like a luxury sport cruiser than a traditional pontoon — and why you'll love owning one.

Style With a Surprise

The Caribbean isn't just a boat, it is a breakthrough. We designed the Caribbean to have a distinctive, timeless look by seamlessly integrating multiple textures of upholstery, contemporary flooring and a bimini top. Exceptional standard features, superior durability and tremendous value make it a pleasure to own.

Caribbean's styling leaves a lasting impression with multiple upholstery textures, a rich color palette and a generous selection of flooring options. Performance and style combine to deliver an unforgettable experience.

The Versatile Choice

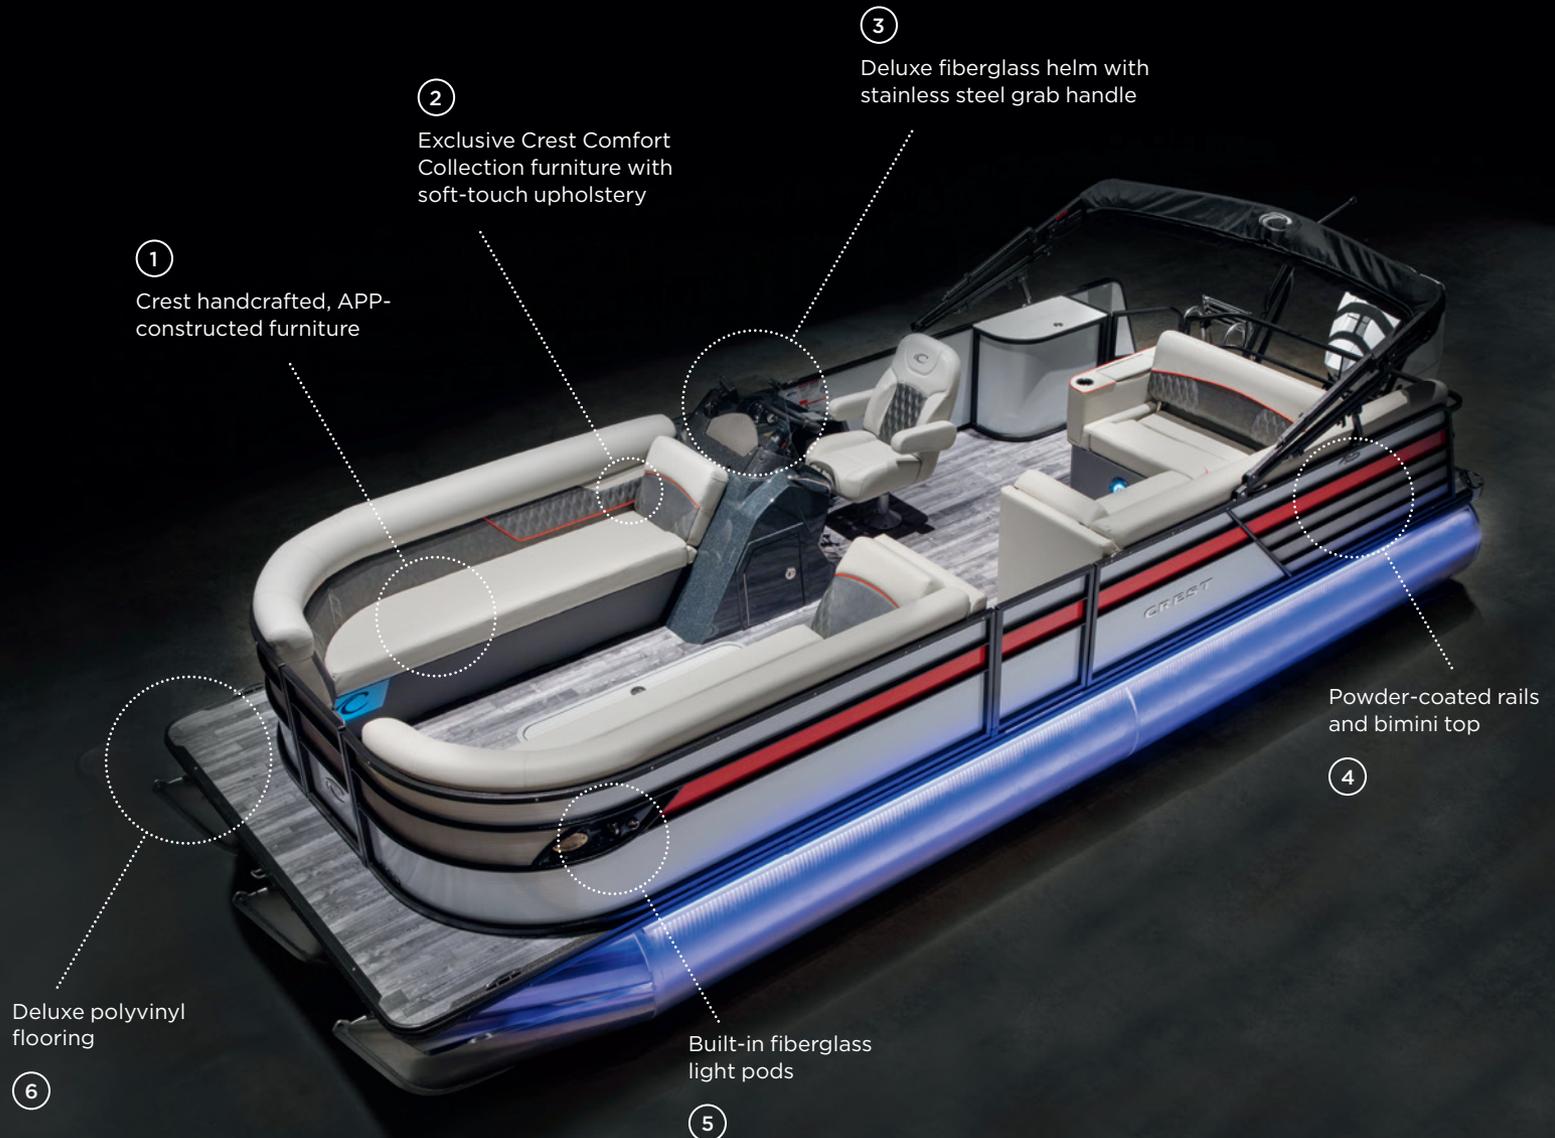

The Classic Platinum's versatility means you can design the perfect boat to match your lifestyle. Whatever you desire — relaxing with friends or enjoying the excitement of wakeboarding and waterskiing — the Classic Platinum is a masterpiece of form and function that can be tailored to meet your needs.

Simply put, the Classic Platinum is one of the best values on the water. We built the Classic Platinum to the same high standards as our top-of-the-line pontoons at a price that's right for your budget.

Simply Amazing

Everything Crest stands for is embodied in the Classic LX — craftsmanship, technology and durability. It's all there, including comfortable best-in-class seating and a deluxe audio system with Bluetooth technology. There's nothing "entry level" about the Classic LX.

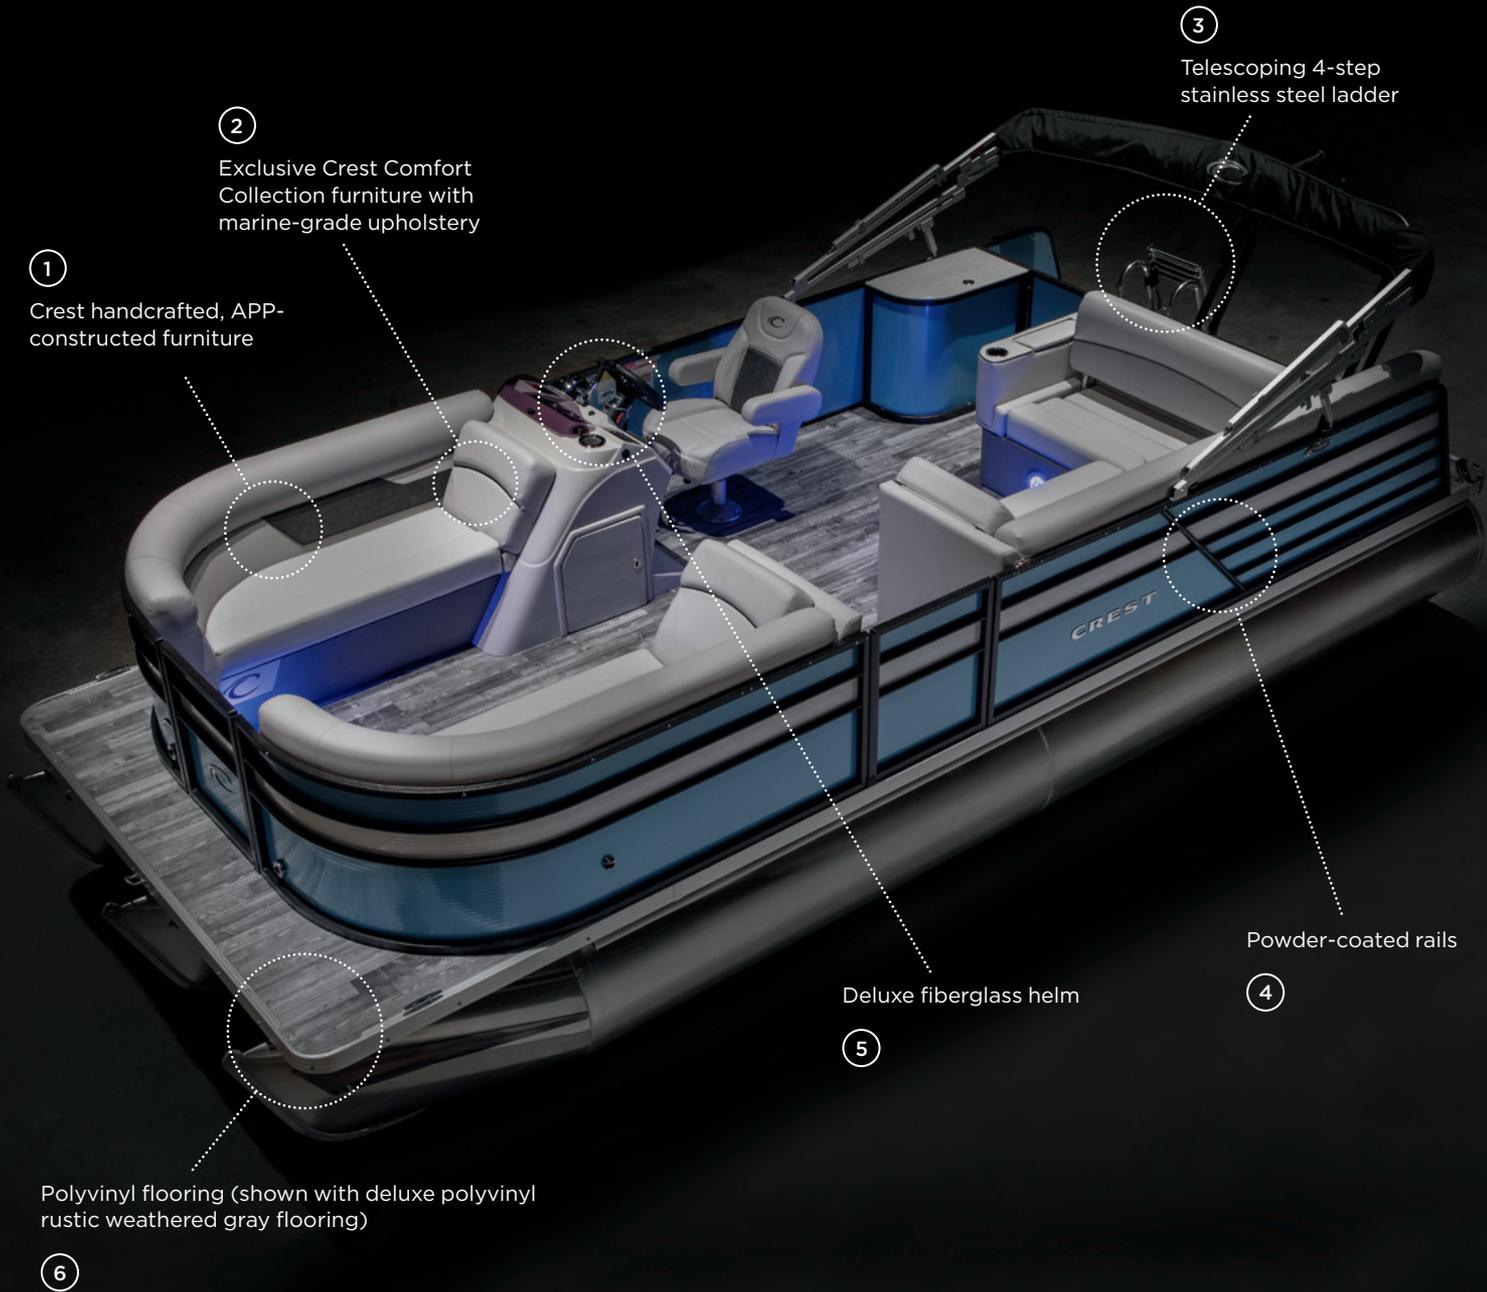

CLASSIC LX

The Classic LX is proof that superior engineering and design can transform simple into something sublime. From the bow to the stern, the Classic LX is built with a high standard of excellence — making it top in its class. Plenty of configurations and styling options only add to its desirability.

- Includes SeaStar Optimus EPS
- Integrated transom
- Standard in-floor ski storage
- 145-gallon fuel tank
- 25" transom height on twin engine

Standard on:

CONTINENTAL NX (SINGLE AND TWIN)

HULL DESIGN BENEFITS

Competitors use a partial-length "cheater" or "sport" center tube. This inferior tube creates underdeck water turbulence and cavitation, which greatly reduces ride quality, speed and performance.

Crest CPT features a full-length center tube. This tube allows for clean-water flow to the prop, which greatly increases ride quality, speed, handling and performance.

- UPPER SPRAY SHIELD
- LOWER SPRAY SHIELD
- FRONT NOSE CONE PROTECTOR
- 5/8" SOLID KEEL
- LIFTING STRAKES
- TRANSOM SPRAY DEFLECTOR
- IN-FLOOR SKI STORAGE

After hundreds of hours of testing different tube shapes, transom heights and chassis configurations, our nautical engineers have created the new and improved CP3 hull.

- 25" outer tubes, coupled with a larger and lower 26" center tube, act like a "vee hull" for unmatched ride quality and performance.
- Best-in-class top speed, handling and all-around performance.
- SeaStar Optimus Electronic Power Steering as standard equipment — precise, effortless steering with zero torque.

CREATING THE CREST COMFORT COLLECTION

For more than six decades, Crest has been known for its classic styles and premium materials. Simply put, no one has been crafting pontoons longer or better than we have. In addition to more than 180 years of furniture craftsmanship experience, we bring you best-in-class comfort, strength, storage, function and style, along with an unwavering dedication to quality. Whether your Crest pontoon has our exclusive APP-constructed furniture (on Classic models) or our FRP construction (on Caribbean, Continental and Savannah models), the Crest Comfort Collection is second to none.

SUPERIOR COMFORT

We use only the highest-quality Marine-grade materials in our upholstery and pair them with the industry's best Marine-grade foam pack to deliver you unmatched seating comfort. Featuring deep seating cushions and tall, luxurious back rests with lumbar support, our stylish and ergonomic design provides best-in-class comfort.

SUPERIOR STRENGTH

At Crest, we never settle for unsightly, mass-produced and cheap plastic furniture. Instead, the Crest Comfort Collection uses AlumaPermaPanel (APP)-constructed and fiberglass reinforced plastic (FRP)-constructed furniture for their superior durability, style, comfort and elegance.

SUPERIOR STORAGE

One of the benefits of engineering and designing our own custom furniture is that we're able to maximize the amount of storage space on our pontoon boats and offer unique and exclusive storage options to our customers, including:

- 38% more storage space with our APP furniture than rotocast plastic pontoon furniture.
- 27% more storage space with our FRP furniture than rotocast plastic pontoon furniture.
- Exclusive pass-thru storage to allow large items to be stowed away.
- "Open air" to reduce the chance of mildew build-up and damage to items in storage.
- Built-in coolers.
- Recessed drink holders with a phone charger.

SUPERIOR MATERIALS

We use advanced drafting software to create our furniture patterns. CNC routers cut each piece of material so they fit together like a puzzle. Strong, custom-designed and engineered hinges allow for effortless access to storage, and high-density foam precisely placed within the seat bases ensures that they will not sag over time. And our exclusive, Marine-grade vinyl with overstuffed, plush foam cushions and soft, supple leather-like touch vinyl are durable and stain-resistant.

CREST QUALITY AND CRAFTSMANSHIP

Tougher Fence Rails

Crest fence rails are powder-coated with a durable hammer-textured finish. We use heavy-duty polymer and UV-protected, marine-grade powder. We construct the rails using the strongest extruded aluminum in the industry (1.25"). Every panel insert is full height with 90-degree mitered gates.

Durable Deck Construction

The Crest deck is constructed using 3/4", 7-ply marine-grade material, bonded with marine-grade adhesive, then sanded to a smooth finish. The deck is through-bolted and screwed to the chassis. Exclusive marine-grade polyvinyl or luxury-woven vinyl is then adhered to the deck.

Superior Helm Stands

Each Crest helm stand is made of strong fiberglass-reinforced plastic (FRP) and is ergonomically designed and engineered to meet the needs of today's boater. FRP is 77% stronger than the blow-molded plastic helms that are commonly found on pontoon boats.

Custom-Built Furniture

All Crest furniture is designed, handcrafted and engineered by our dedicated Crest team in our furniture, upholstery and sewing facility. We use superior marine-grade vinyl, plush marine-grade foam and the highest-quality construction materials for best-in-class comfort, strength and storage space.

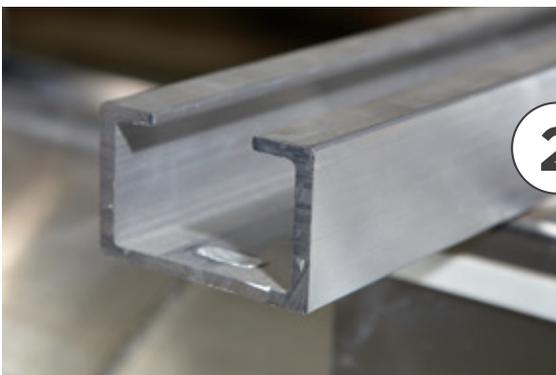

1

High-Quality Tubes

Each Crest tube has four sealed chambers for best-in-class safety, durability and flotation. Our tubes feature the longest and thickest gauge nose cones (0.100" thick) and end caps (0.125" thick) on the market, along with a solid, extruded 5/8" keel.

2

Stronger Chassis

Each Crest chassis features the thickest gauge aluminum cross members on the market (0.250" or 0.190" thick) for the strongest, smoothest, driest and most comfortable ride possible.

7

Crest Heritage

Crest Marine has excelled in manufacturing pontoons since 1957. Our commitment to quality and excellence, combined with the dedication and expertise of our employees, is what allows us to create pontoons designed for luxury, comfort and your lifestyle.

OUR WARRANTIES

Because of our confidence in our materials, our methods and our suppliers, Crest offers our customers the following warranties on structure and components for all our pontoons:

- 5-year bow-to-stern warranty
- Limited lifetime structural warranty
- Limited lifetime hull warranty

Not only will these provide you with valuable peace of mind, they can also be benefits for the resale value of your Crest pontoon.
